

## **CARF Accredited Stroke Specialty Rehabilitation Programs in Nebraska**

Consumers like you have choices in directing your services. Carefully researching and selecting your options are essential steps to finding the services you need and achieving the results you desire. The Commission on the accreditation of Rehabilitation Facilities (CARF) signals a service provider's commitment to continually improving services, encouraging feedback, and serving the community. Through accreditation, CARF assists service providers in improving the quality of their services, demonstrating value, and meeting internationally recognized organizational and program standards.
